EDUCATION SERVICES GHANA

OFFICIAL PROPOSAL

One Million Coders Programme

National Digital Skills Development Initiative —
Proposal for Programme Delivery Partnership

SUBMITTED TO

Ministry of Communications & Digitalization
Presidential Special Initiatives Office
Youth & Employment Agency, Ghana
Ghana Digital Centre

SUBMITTED BY

Techbridge Education Services Ghana
Techbridge University College
Oyibi, Greater Accra, Ghana
government@techbridge.edu.gh

DATE

May 2026

REFERENCE

TUC-ICT-PROP-2026-001

Executive Summary

SECTION 1

Techbridge Education Services Ghana is the only Ghanaian-led, currently operational technology education platform with the institutional partnerships, infrastructure, and curriculum required to deliver the Government of Ghana's One Million Coders Programme at national scale. We are ready to onboard the first cohort within **8 weeks** of contract signing.

This proposal presents Techbridge's comprehensive plan to implement the One Million Coders Programme across Ghana's 50+ partner institutions — delivering experiential, project-based learning in Artificial Intelligence, Cloud Computing, Data Science, and Software Development — leading to verifiable Skill Wallet credentials and direct placement into Ghana's growing technology sector.

Unlike competing proposals from international vendors, Techbridge operates inside Ghana today. Our data remains in Ghana, our staff are Ghanaian, our profits recirculate into the Ghanaian economy, and our leadership is directly accountable to Ghanaian institutions — not a foreign board of directors.

5+

Years Operating in
Ghana

Founded 2019

50+

Partner Institutions
Across all regions

15,000+

Active Learners
On platform today

8 Wks

To Full Deployment
From contract signing

Operational Platform — techbridge.edu.gh is live, serving 15,000+ students, with 98.5% uptime since 2020. No setup phase required.

Ghanaian-Led & Accountable — Founded and managed in Ghana. Data sovereignty maintained. Profits reinvested locally. Leadership answerable to Ghanaian law.

8-Week Deployment Timeline — International vendors require 6–12 months to configure, localise, and staff. Techbridge can scale the first 50,000 learners in 8 weeks.

Background, National Context & About Techbridge

NATIONAL CONTEXT

Ghana faces a structural digital skills gap at a pivotal moment. With a youth population exceeding 15 million and 46% of young people classified as underemployed, the One Million Coders Programme represents the Government's highest-impact economic intervention.

- 15M+** Youth population (ages 15–35)
- 46%** Youth underemployment rate
- \$4.2B** Ghana 2030 digital economy target
- \$800M+** Annual foreign tech services spend

ABOUT TECHBRIDGE

Techbridge Education Services Ghana is a Ghanaian-founded technology education company established in 2019. We operate Techbridge University College (TUC) in Oyibi, Greater Accra, and a national network of partner institutions.

- Founded 2019 — Ghanaian-owned and operated
- Physical campus at Oyibi, Greater Accra
- Accredited by the National Accreditation Board
- Technology Education & Workforce Development mandate
- Active MoUs with 50+ tertiary institutions nationally

The National Opportunity (Section 7)

Employment Creation

Every 100 coders trained creates ~40 indirect jobs in the Ghanaian economy through supply chain and demand effects.

Export Revenue

Ghana's tech services export market could reach \$1.2B annually by 2030 with a trained domestic workforce pipeline.

Import Substitution

Ghana currently spends \$800M+ on foreign tech services annually. Domestic skills retain this spend inside Ghana.

IBM SkillsBuild

Cisco NetAcad

Students learn and are assessed directly on industry-standard platforms, earning globally recognised certifications alongside Techbridge Skill Wallet credentials.

KEY MILESTONES 2019–2026

- 2019** Techbridge founded in Accra; TUC campus opened; first technology curriculum launched
- 2020** techbridge.edu.gh launched; first 1,000 learners enrolled; platform uptime at 98.5%+
- 2022** 10,000 learners milestone; first cohort of 500 internship placements across Ghana
- 2023** Google Cloud Campus Partner status awarded; AWS EdStart programme accepted
- 2024** 50+ institutional MoUs signed; ai.techbridge.edu.gh AI platform launched
- 2026** 15,000+ active learners; ready for national One Million Coders scale-up

Why Techbridge Over Foreign Vendors

The Government of Ghana has received proposals from international vendors including SmartBridge Education Services Ltd (India). The table below compares the critical programme delivery factors.

Criteria	Techbridge Ghana	SmartBridge India
Headquarters	GH Accra, Ghana	IN Hyderabad, India
Currently operational in Ghana	✓ Active today	X Not established
Ghanaian learners on platform	15,000+ verified	None — new market
Deployment timeline	8 weeks	6–12 months (estimate)
Time to first learner cohort	8 weeks	6+ months
Data sovereignty	✓ Ghana-hosted	X Data leaves Ghana
Local accountability	✓ Ghanaian law	X Indian corporate law
Profits reinvested in Ghana	✓ 100%	X Repatriated to India
Established institutional MoUs	50+ signed	0 in Ghana
Ghana-specific content	✓ Built in	X Requires localisation
Government reporting ready	✓ Framework in place	X To be configured

The Sovereignty Argument

Every GHS spent on a foreign vendor for this programme leaves Ghana. Data about Ghanaian citizens sits on foreign servers under foreign law. A local partner is not merely preferable — it is a matter of national data sovereignty and economic self-determination.

PLATFORM ARCHITECTURE (SECTION 9–10, 14)

techbridge.edu.gh

Main LMS — 15,000+ learners, 200+ courses

ai-tools.techbridge.edu.gh

AI Tools Hub — 30+ productivity tools

ai.techbridge.edu.gh

Adaptive AI Learning Platform

SKILL WALLET (SECTION 9)

TECHBRIDGE SKILL WALLET

Ama Korantema

AI Track · Cohort 2025

- ✓ Blockchain-verified credentials
- ✓ NQF-aligned certification
- ✓ Employer-facing skills profile
- ✓ AI internship matching

Implementation Roadmap — 8 Weeks to First Cohort

Week 1–2

Phase 1: Contract & Governance

- ✓ Partnership agreement signed
- ✓ National Programme Director appointed
- ✓ Steering committee established with MoCD, GYEEDA, Ghana Digital Centre

Week 3–4

Phase 2: Platform Configuration

- ✓ Government branding applied to platform
- ✓ Cohort intake 1 registration portal opened
- ✓ LMS configured for 50,000-learner capacity

Week 5–6

Phase 3: Educator Onboarding

- ✓ Facilitators trained at 30 institutions
- ✓ Track-specific mentors confirmed from industry partners
- ✓ Assessment framework submitted to accreditation board

Week 7–8

Phase 4: Launch & Enrolment

- ✓ National launch event with government stakeholders
- ✓ First 50,000 learners enrolled and active
- ✓ Reporting dashboard live for Ministry access

SCALE-UP TO ONE MILLION CODERS

YEAR 1

50,000

30 institutions

YEAR 2

150,000

50 institutions

YEAR 3

300,000

All accredited

YEAR 5

1,000,000

National milestone

Governance, Sustainability & Next Steps

GOVERNANCE FRAMEWORK (SECTION 17)

- **National Programme Director** — Techbridge senior appointment
- **Government Liaison Officer** — Joint Techbridge / MoCD appointment
- **Regional Coordinators x8** — One per region, local hires
- **Institutional Liaison Network** — Representative at each partner university
- **Independent Assessment Board** — External assessors, NQF-aligned
- **Ministerial Steering Committee** — Quarterly oversight with MoCD

SUSTAINABILITY (SECTION 18)

Years 1–2

Government grant-funded; co-funded by employer partners via certification licensing fees

Years 3–4

Self-sustaining through Skill Wallet credential revenue and corporate recruitment partnerships

Year 5+

Fully commercially viable; government retains dashboard access and KPI reporting at zero additional cost

Next Steps — Three Asks from Government (Section 20)

01

Schedule Ministerial Briefing

A 60-minute formal presentation for the Ministry of Communications & Digitalization and Presidential Special Initiatives

02

Issue Letter of Intent

A non-binding Letter of Intent to partner allows Techbridge to begin institutional pre-enrolment with 30 universities

03

Commence Contract Negotiation

Formal partnership agreement with defined KPIs, reporting structure, and 8-week deployment commencement date
