Why Techbridge?

The case for choosing Ghana's own digital skills partner over foreign vendors.

The Comparison

Measured across eight critical criteria, Techbridge leads in every category.

Criterion	Techbridge Ghana	SmartBridge India	Other International Vendors	Advantage
Local Ownership	✓ Ghanaian-founded	✗ India-based	✗ Foreign-based	Techbridge
Established Presence	✓ 5+ years in Ghana	✗ New to Ghana	✗ Minimal presence	Techbridge
Speed to Market	✓ 8 weeks	✗ 6+ months	✗ 6+ months	Techbridge
Platform Ready	✓ techbridge.edu.gh live now	✗ New deployment required	✗ New build required	Techbridge

Criterion	Techbridge Ghana	SmartBridge India	Other International Vendors	Advantage
Accountability	✔ Direct to Ghana Govt	✘ Indirect via India	✘ Indirect via HQ	Techbridge
Cost Structure	✔ Competitive, locally set	✘ Higher fees	✘ Premium pricing	Techbridge
Profit Retention	✔ Reinvested in Ghana	✘ Repatriated to India	✘ Sent abroad	Techbridge
Cultural Fit	✔ Ghanaian-designed programs	✘ Generic global templates	✘ Adapted foreign curriculum	Techbridge

● Government of Ghana Initiative

The One Million Coders Programme

Delivered by Techbridge

Ghana's national digital skills initiative, implemented through Techbridge's local-first experiential learning ecosystem — equipping one million young Ghanaians with the coding and technology skills needed to compete in the global economy.

Background & National Context

Ghana faces a structural digital skills deficit at a pivotal moment in its economic development. With a youth population of over 15 million and 46% of 15–35 year-olds classified as unemployed or underemployed, the inability to access formal technology training represents both a crisis and an opportunity.

The Government of Ghana's One Million Coders Programme is a flagship national initiative designed to equip young Ghanaians — particularly at tertiary level — with critical coding, cloud, data, and AI skills demanded by the global digital economy. Techbridge proposes to implement this programme through a proven, locally-operated experiential learning ecosystem already serving 15,000+ active learners.

• Live Infrastructure — Operational Since 2020

The Platform — **Live, Proven,** Ghanaian.

No deployment needed. Techbridge's digital infrastructure is operational today, serving thousands of Ghanaian students across three integrated platforms.

 **98.5%** Uptime

 **8,000+** Concurrent Users

 **Live Since 2020** Proven Track Record

 **Zero** Downtime During Peak Periods

Three Platforms. One Unified Ecosystem.

Each platform serves a distinct function within Ghana's digital education stack — fully integrated and ready to scale nationally.

✓ PROVEN TRACK RECORD

Five Years. Proven Results. Ghanaian- Built.

While other vendors propose new platforms, Techbridge has already delivered.
